

## MAG2422 Audio rack-mounted two-zone terminal

### *Description*

MAG2422 is a rack-mounted two-zone terminal based on digital audio transmission protocol. It can output the local programs and background music through the local audio output module, with intelligent control of the host.

### *Features*

- Dual Network interface design
- With 2 channels input and 2 channels output
- 1U rack mounted design,support Gigabit network transmission
- Network signal is no latency,uncompressed,non-loss
- With reset key for data reconfiguration
- Power supply:AC220V/50Hz

## *Specification*

Protection	AC fuse F1L
Power Supply	AC220V/50Hz
Package Dimensions (L×W×H mm)	520×345×95
Machine Dimensions (L×W×H mm)	483×275×44
Gross Weight	3.28kg
Net Weight	2.08kg
