

DSP4042W/DSP4053W/DSP4064W

20W/30W/40W Wall-Mounted Weatherproof Landscape Speaker

Description

The 20W/30W/40W weatherproof landscape speaker combines design and superior sound quality. Its high-class woofer ensures outstanding audio performance. Featuring high temperature resistance and IP66 weatherproofing, it's suitable for indoor and outdoor use. Special brackets enable versatile mounting. With built-in 70V/100V and 8Ω power taps, you can select 20W, 30W, or 40W power options. It offers three installation types: wall-mounted, floor-standing, and pendant. This speaker designed with our own mold, it is ideal for gardens, parks, hotels, and outdoor events.

Features

- Commercial PA system speaker, with 3 mounting methods: wall-mounted, floor-stand and pendant type
- IP66, all weatherproof speaker for indoor and outdoor use
- Rated output power 20W/30W/40W at 8Ω and 70V/100V with power tap
- 1×4", 1×5.25" and 1×6.5" for bass driver and 1×1" for treble driver
- Quick installation with water-proof brackets
- White and black color for option
- Ideal for garden, parks, hotels and other outdoor activities
