

DSP6120

120W Professional Conference Speaker

Description

DSP6120 is a 120W constant resistance professional conference speaker that is made of aluminum alloy housing, with extremely textured appearance, which can provide professional-level sound performance and meet the needs of demanding venues.

Features

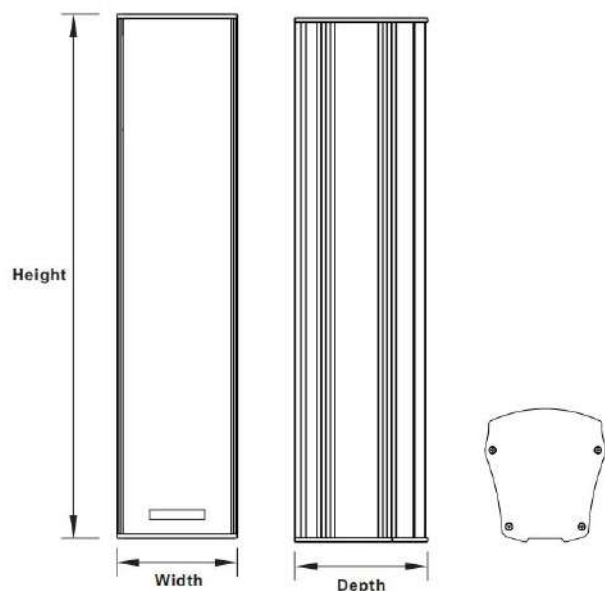

- Rated power: 120W
- Freq. Response: 95Hz-18kHz
- Sensitivity (1m,1W): 91±2dB
- Max SPL (1m): 112±2dB
- Streamlined design, simple and beautiful shape, suitable for decoration in various places.
- Adopts a combination of 4.5" fiberglass drum woofer and 1" neodymium tweeter, with wide frequency response, clear bass and bright treble.
- Equipped with a multifunctional mounting bracket for easy installation.
- Durable aluminum alloy housing and aluminum mesh, not easy to deform and rust.

Specifications

Model	DSP6120
Speaker Unit	4.5"×4, 1"×1
Rated Impedance	8Ω
Rated Power(RMS)	120W
Freq. Resp. Range	95Hz-18kHz

Sensitivity(1m,1W)	91±2dB
Max.SPL(1m)	112±2dB
Product Size (H×W×D)	610×140×155mm
Package Size (2PCS/CTN)	717×420×225mm
Net Weight (1PC)	7.8kg
Gross Weight (2PCS/CTN)	17.6kg

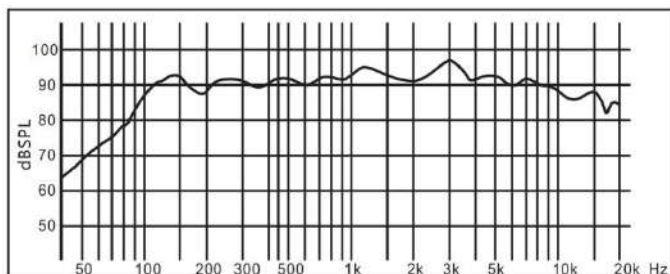

Product Information

Model	Height	Width	Depth
DSP6120	610	140	155

(Unit: mm)

Frequency Response Characteristics
(dB SPL, 1W, 1m)

Distortion Characteristics
(THD < 3% 1W, 1m, 100Hz-10kHz)
